CASEWARE
BEYOND THE BALANCE

CMS SYSTEMS SOLUTIONS

CMS Systems Solutions (CMS) was founded in 2001 to provide a wide range of professional services and solutions to clients worldwide. These include business and accounting software selection and implementation, report design, training and project management.

Since 2004 CMS is the exclusive authorised distributor of CaseWare International Inc. Cyprus and Greece.

Through the current range of CaseWare solutions, CMS is the leader in the provision of solutions for the preparation of financial statements, audit automation and tax returns preparation in Cyprus.

CMS currently provides solutions and support to over 550 companies, mainly Audit & Accounting firms, with more than 4000 users.

CMS's clients comprise the big 4 accounting firms and nearly all large and medium sized accounting and auditing firms in Cyprus as well as a large number of smaller firms. Additionally CMS has a numerous corporate clients including a number of listed companies.

CMS currently employs 10 consultants including 4 qualified accountants (ACA and ACCA) with many years of experience.

Our team of consultants and developers provide a high quality solution with client satisfaction our primary objective.

CASEWARE INTERNATIONAL INC.

CaseWare International Inc. is recognised around the world as one of the premier developers of audit assurance and financial reporting tools by accountants and auditors in practices large and small, in corporations and government. CaseWare helps professionals in over 60 countries perform their engagements more easily and efficiently.

Founded in Toronto in 1988, CaseWare is the dominant provider of mission-critical accounting and auditing software used globally by accounting firms and a leading provider of auditing software to governments, tax authorities and corporations.

CaseWare International Inc. is a leading supplier of software solutions to accountants and auditors worldwide.

CaseWare products are used by customers to prepare, review and audit financial statements, manage client engagements, conduct detailed audit and fraud detection tests, track time and billings and support overall practice management.

OUR PRODUCTS

CASEWARE WORKING PAPERS

WORKING PAPERS

CaseWare Working Papers is a highly flexible engagement software that provides you with everything you would expect from an assurance and reporting tool plus much, much more!

Using Working Papers' real time updates, full annotation capabilities, task management and powerful version control at the document, cell and account level, electronic review has never been easier.

From the financial statement, you can drilldown through the supporting schedules and documents all the way to the detailed data. You can plan, perform and review your entire engagement on screen, completely eliminating paper.

FINANCIAL STATEMENTS TEMPLATE

FINANCIALS

Financial Statements Template is a very adaptable Working Papers component offering everything expected from an accounts preparation package.

Using this template you can prepare financial statements in accordance with IFRS and the Cyprus Companies Law both in Greek and in English. Options are available for companies, partnerships and sole traders. The Cash Flow statement and the Company Income Declaration (IR4) are prepared effortlessly within the Template. Standardized Minutes of the Shareholders Annual General Meeting are also available for small companies. Financial Statements can be exported to various formats for use by other software, including Microsoft Word and PDF.

The template can also be customised very easily to satisfy the reporting requirements of any organisation.

CASEWARE AUDIT INTERNATIONAL TEMPLATE

CaseWare **Audit** International template is a powerful and efficient "**out-of-the-box**" solution for performing assurance, analysis and reporting engagements in a "paperless" environment.

Audit is adaptable for any sized firm - large or small. Equipped with the flexibility to use built-in content or add your own, Audit can address all your requirements.

CASEWARE TAX FORMS

CaseWare Tax Forms is a template that offers a unique way to manage the completion of your clients' Tax Returns.

The process of completing and submitting Inland Revenue forms is simplified by the use of a number of special features.

Tax return can be completed and validated in Greek or English. Special Ministry Finance approval means that completed returns can be printed and submitted manually to the Inland Revenue. Alternatively completed returns can be exported in batch to XML files and submitted electronically via the TAXISnet system.

CASEWARE SMARTSYNC

Sure, there are many solutions that allow accountants to collaborate on their work, but none as smart or sophisticated as **CaseWare SmartSync**. Combined with CaseWare **Working Papers**, this revolutionary tool provides unprecedented gains in productivity and efficiency, while also eliminating geographic boundaries. No matter where team members are, **SmartSync** keeps everyone's work in perfect harmony and in sync.

CASEWARE CONNECTOR

Connector is a quick and easy way to link Working Papers information into documents generated by Word or Excel.

In addition to integrating data with any part of CaseWare Working Papers' database, including all amounts and properties of accounts, you can add full annotation including referencing and tick-marks and drill down to supporting documents.

CASEWARE CLOUD

CaseWare Cloud is a secure web-based collaboration environment that greatly improves the way your staff work together and with clients.

With hassle-free updates, any-device access and new ways of tracking your engagements, CaseWare Cloud elevates your collaboration efforts to a whole new sphere.

Built-in to CaseWare Cloud, CaseWare Collaborate is a set of web-based applications that offer an impressive amount of engagement collaboration tools in one centralized solution, including enterprise social networking, full client portal, document management, engagement tracking and central management of staff and clients.

CASEWARE TIME

CaseWare Time performs the complex functions an accounting practice requires in a simple, easy-to-use manner that doesn't require a financial background. Time can handle any practice-management challenge in practices both small and large.

CaseWare Time gives you everything you need to manage your accounting practice, in one package. With Time, you get time and billing, accounts receivable, and practice management all in real time. So there's no waiting for someone else to close a file before you get to work. This real-time technology lets you know instantly the status of your practice. When you enter your time, all relevant amounts for each report and client letter are updated immediately and automatically.
